Past performance is no guarantee of future results, which will vary. Gross of fee returns are presented before investment management fees but after all trading commissions. Net of fee returns are presented after the deduction of investment management fees. The investment advisory fees and any other expenses the client may incur in the management of its account will reduce a client's return. Please keep in mind that investment objectives may not be met as the underlying investment options are subject to market risk and fluctuate in value.

New York Life Investment Management LLC (NYLIM) claims compliance with the Global Investment Performance Standards (GIPS®). NYLIM is a wholly owned investment management subsidiary of New York Life Investment Management Holdings LLC (a wholly owned subsidiary of New York Life Insurance Company). NYLIM is a registered investment advisor and is a full-service investment management firm providing services to institutional and individual investors.

To receive a complete list and description of NYLIM's composites and/or a presentation that adheres to the GIPS standards, contact Steve Sexeny at 781-619-2440 or email [steve\\_sexeny@nylim.com](mailto:steve_sexeny@nylim.com).

The firm is defined as the following divisions of NYLIM: NYLIM Equity Investors, NYLIM Fixed Income Investors, and Retail Markets. Performance records for each of these entities are included from the predecessor entities' legal inception date or ten years, whichever is shorter.

#### Large-Cap Enhanced:

The Large-Cap Enhanced strategy is a quantitative, factor-based strategy that follows a disciplined approach to manage risk and return relative to the index. All performance is U.S. dollar-based. Leverage and derivatives are not used in this composite. Performance includes the reinvestment of income. The benchmark is the S&P 500 Index, a representative measure of the broad large-cap equity market. S&P 500 is a trademark of The McGraw-Hill Companies, Inc.

#### Mid-Cap Core:

The Mid-Cap Core strategy is quantitative and factor-based. All performance is U.S. dollar-based. Leverage and derivatives are not used in this composite. Performance includes the reinvestment of income. The benchmark is the Russell Midcap Index, a representative measure of the broad mid-cap equity market.

#### Small-Cap Core:

The Small-Cap Core strategy is quantitative and factor-based. All performance is U.S. dollar-based. Leverage and derivatives are not used in this composite. Performance includes the reinvestment of income. The benchmark is the Russell 2000 Index, a representative measure of the broad small-cap equity market.

#### US Large-Cap Core 130/30:

The US Large-Cap Core 130/30 strategy is quantitative and factor-based. All performance is U.S. dollar-based. Leverage and derivatives are not used in this composite. Performance includes the reinvestment of income. The benchmark is the Russell 1000 Index, a representative measure of the broad large-cap equity market.

#### US Large-Cap Growth 130/30:

The US Large-Cap Growth 130/30 strategy is quantitative and factor-based. All performance is U.S. dollar-based. Leverage and derivatives are not used in this composite. The benchmark is the Russell 1000 Growth Index, which measures the performance of those Russell 1000 companies with higher price-to-book ratios and higher forecasted growth values.

#### International 130/30:

The International 130/30 strategy is quantitative and factor-based. All performance is U.S. dollar-based. Leverage and derivatives are not used in this composite. Performance includes the reinvestment of income. The benchmark is the MSCI EAFE Index, a representative measure of the developed markets outside of North America: Europe, Australasia and the Far East.

#### Floating Rate:

The Floating Rate strategy focuses on key leveraged loan credit metrics. All performance is U.S. dollar-based. Leverage and derivatives are not used in this composite. Performance includes the reinvestment of income. The benchmark is the Credit Suisse Leveraged Loan Index, designed to mirror the investable universe of the \$ US-denominated leveraged loan market.

#### Core Fixed:

The Core Fixed strategy utilizes bottom-up, credit intensive, value-oriented analysis. All performance is U.S. dollar-based. Leverage and derivatives are not used in this composite. Performance includes the reinvestment of income. Effective May 1, 2004, the primary benchmark is the Lehman Aggregate Bond Index, a representative measure of the investment-grade domestic bond market, and replaces the Merrill Lynch Corporate/Government Master Index.
