**About risk:**

- Investments in small- and mid-capitalization companies may be more volatile than investments in large-cap companies. Investments in small-cap companies may have additional risks because these companies have limited product lines, markets or financial resources.
- Foreign securities may be subject to greater risks than U.S. investments, including currency fluctuations, less liquid trading markets, greater price volatility, political and economic instability, less publicly available information, and changes in tax or currency laws or monetary policy. These risks are likely to be greater for emerging markets than for developed markets.

**Please call 1-800-477-3829 for a prospectus, and, if available, a summary prospectus. Investors are asked to consider the investment objectives, risks, and charges and expenses of the investment carefully before investing. The prospectus, and, if available, a summary prospectus, contains this and other information about the investment company. Please read the prospectus, and, if available, a summary prospectus, carefully before investing.**
