The amounts and sources of distributions reported in this Notice are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

Any distributions in excess of the Fund's current and accumulated earnings and profits will be treated first, as a tax-deferred return of capital, which is applied against and will reduce the adjusted tax basis of shares and, after such adjusted basis is reduced to zero, will generally constitute capital gains. A return of capital distribution may lower a shareholder's basis in the Fund, causing a potential future tax consequence in connection with the sale of Fund shares, even if such shares are sold at a loss to the shareholder's initial investments.

The actual amounts and sources of income of the amounts for tax reporting purposes will depend on the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send a Form 1099-DIV for the calendar year that will advise how to report these distributions for federal income tax purposes.
