Returns represent past performance which is no guarantee of future results. Current performance may be lower or higher. Investment return and principal value will fluctuate, and shares, when redeemed, may be worth more or less than their original cost. Performance reflects a contractual fee waiver and/or expense limitation agreement in effect until terminated by the board of Trustees of the ETF, without which total returns may have been lower. Visit nylim.com for the most recent month-end performance. Expenses stated are as of the fund's most recent prospectus.

Shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Net asset value (NAV) returns are calculated using the daily NAV as of the close of regular trading on the Fund's primary exchange (typically 4:00pm ET). Effective August 31, 2025, the price used to calculate market price (MP) returns is the Fund's official closing price. Prior to August 31, 2025, market price returns were determined using the mean between the day's last bid and ask prices on the fund's primary exchange. The market price returns do not represent returns an investor would receive if shares were traded at other times.

Index performance is for illustrative purposes only and does not represent actual Fund performance. One cannot invest directly in an index. Performance data for the Index assumes reinvestment of dividends and is net of the management fees for the Index's components, as applicable, but it does not reflect management fees, transaction costs or other expenses that you would pay if you invested in the Fund directly. No representation is being made that any investment will achieve performance similar to that shown.

Before You Invest

Before considering an investment in the Fund, you should understand that you could lose money

As with all investments, there are certain risks of investing in the Fund. The Fund's Shares will change in value and you could lose money by investing in the Fund. The Fund employs a "passive management" investment approach designed to track the performance of the Underlying Index. There is no guarantee that the Fund's investment results will have a high degree of correlation to those of the Underlying Index or that the Fund will achieve its investment objective. The Underlying Index seeks to provide exposure to the equity securities of companies meeting environmental, social and corporate governance investing criteria and the Fund may forgo some market opportunities available to funds that do not use these criteria. The application of environmental, social and corporate governance investing may impact the Fund's relative investment performance. There is no guarantee that the construction methodology of the Underlying Index will accurately provide exposure to issuers meeting environmental, social and corporate governance criteria. There is no assurance that employing ESG strategies will result in more favorable investment performance. Investments directly in foreign (non-U.S.) currencies or in securities that trade in, and receive revenues in, foreign (non-U.S.) currencies are subject to the risk that those currencies will decline in value relative to the U.S. dollar. Investments in the securities of non-U.S. issuers involve risks beyond those associated with investments in U.S. securities, including greater market volatility, the availability of less reliable financial information, higher transactional and custody costs, taxation by foreign governments, decreased market liquidity and political instability. Small- and mid-capitalization companies may be more vulnerable to adverse general market or economic developments, and their securities may be less liquid and may experience greater price volatility than larger, more established companies.

The NYLIM Candriam International Equity Index (the Underlying Index) is a broad-based, market-cap weighted index that consists of the top-scoring international equities meeting environmental, social and corporate governance (ESG) criteria developed by Candriam. The Underlying Index was developed by New York Life Investment Management, LLC with Candriam acting as index consultant.

Candriam is a wholly owned subsidiary of New York Life Investment Management Holdings, LLC.

The MSCI EAFE[®] Index (Net) consists of international stocks representing the developed world outside of North America.

^{††}Diversification cannot prevent a loss or guarantee a profit.
