

NYLI MacKay Muni Income Opportunities Fund^{††}

Formerly MainStay MacKay Municipal Income Opportunities Fund

A1: MMIPX | A2: MMIRX | A3: MMIVX | I: MMIOX

All data as of 12/31/25

Active, dynamic approach to municipal investing.

Seeks: Current income exempt from regular federal income tax.

Morningstar Category: Muni National Long

Benchmark: Muni Income Composite Index

Dynamic “Turn-Key” Solution

Investment-grade oriented strategy with the flexibility to opportunistically invest up to 50% in high yield municipal securities.

Enhanced Income Potential

The fund seeks to generate high tax-exempt income through municipal security selection and tactical leverage capabilities.

Interval Fund Structure

The interval fund structure enables the use of more opportunistic investment strategies to seek excess total return potential.^{††}

Inception Date: Class A1: 03/25/2024; Class A2: 03/25/2024; Class A3: 03/25/2024; Class I: 03/25/2024

Fund Expenses (%)

	I	A1	A2	A3
Adjusted Expense Ratio After Waivers/Reimbursements** (Excludes cost of leverage)	1.05	1.55	1.55	1.80
Total Expense Ratio After Waivers/Reimbursements [†] (Includes cost of leverage)	1.66	2.16	2.16	2.41

[†]Total Net Expense Ratio (as a percentage of Net Assets Attributable to Common Shares). Assumes the use of leverage through the use of funds borrowed from banks or other financial institutions and tender option bonds (TOBs) representing 25% of Managed Assets at an annual interest rate expense to the Fund of 3.75%, which is based on current market conditions. Interest expense is required to be treated as an expense of the Fund for accounting purposes. New York Life Investments has contractually agreed to waive fees and/or reimburse expenses so that the Total Annual Operating Expenses (excluding taxes, interest, litigation, extraordinary expenses, brokerage and other transaction expenses relating to the purchase or sale of portfolio investments and acquired (underlying) fund fees and expenses) do not exceed the following percentages of average daily net assets: Class I, 1.05%; Class A1, 1.55% Class A2, 1.55% and Class A3, 1.80%. This agreement will remain in effect until February 28, 2026, and shall renew automatically for one-year terms unless New York Life Investments provides written notice of termination prior to the next term or upon approval of the Board. **Excluding waivers/reimbursements, Total Gross Expense Ratios (including cost of leverage) would be: Class I, 1.93%; Class A1, 2.43%; Class A2, 2.43%; Class A3, 2.68%.**

**Adjusted Net Expense Ratio After Waivers/Reimbursements excludes interest expense related to leverage.

Returns represent past performance which is no guarantee of future results. Current performance may be lower or higher. Investment return and principal value will fluctuate, and shares, when redeemed, may be worth more or less than their original cost. Performance reflects a contractual fee waiver and/or expense limitation agreement in effect through 2/28/26, without which total returns may have been lower. This agreement renews automatically for one-year terms unless written notice is provided before the start of the next term or upon approval of the Board. No initial sales charge applies on investments of \$250,000 or more (and certain other qualified purchases). However, a contingent deferred sales charge of 1.00% may be imposed if they are repurchased within 18 months of the date of purchase on shares that were purchased without an initial sales charge. Visit newyorklifeinvestments.com for the most recent month-end performance. Expenses stated are as of the fund's most recent prospectus.

^{††}Limited quarterly liquidity at NAV for 10% of outstanding shares.

[†]Effective 8/28/24, MainStay MacKay Municipal Income Opportunities Fund was renamed NYLI MacKay Muni Income Opportunities Fund.

Fund Statistics³

Fund Inception	3/25/24
Total Net Assets (all classes)	\$101.8 M
Total Managed Assets	\$132.7 M
Distribution Frequency	Monthly*
Subscriptions	Daily at NAV
Liquidity	Quarterly share repurchases expected to equal 10% of outstanding shares

*Accrued daily.

	Fund	Benchmark
Avg. Price (\$)	102.9	101.0
Coupon Rate	5.1%	4.2%
Yield to Worst	4.5%	4.0%
Effective Maturity	17.3 Yrs	14.7 Yrs
Leverage	23.1%	—
Levered Modified Duration to Worst	7.7 Yrs	—
Unlevered Modified Duration to Worst	6.0 Yrs	6.9 Yr
Percentage of AMT Bonds	19.0%	—
Private Placement Allocation	0.0%	—
Taxable Municipal Allocation	6.7%	—

Distributions	Class I	Class A2
Distribution Rate	3.96%	3.45%
Tax-Equivalent Distribution Rate	6.69%	5.82%
Last Distribution: December 2025 (\$)	0.0333	0.0290
SEC 30-Day Yield	3.76%	3.25%
Unsubsidized 30-Day Yield	3.40%	2.90%

SEC 30-Day Yield is based on net investment income for the 30-day period ended 12/31/25 divided by the offering price per share on that date. Yields for other share classes will vary.

Unsubsidized 30-Day Yield reflects what the yield would have been without the effect of waivers and/or reimbursements.

Distribution rate is calculated by annualizing the most recent distribution per share (with such annualizing based on dividing the number of calendar days during the year by the number of calendar days over which the most recent distribution accumulated) and dividing it by the NAV as of 12/31/25. The Fund currently intends to pay monthly distributions from net investment income.

Tax Equivalent Distribution Rate assumes the maximum regular federal income tax rate and the Medicare tax in effect December 2015 (40.8%). The fund may hold taxable municipal bonds, reducing the tax-equivalent yield. Tax treatment of Fund distributions vary; investors should consult a tax advisor to determine if the Fund is appropriate for them.[†]

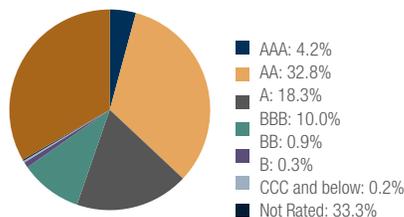

Not all share classes may be available through your financial services professional.

NYLI MacKay Muni Income Opportunities Fund

Credit Quality Breakdown (%)

The Fund's percentages are calculated based on its fixed-income securities, excluding equities, convertibles, and cash. These securities are rated by independent agencies. If multiple ratings are given, the highest is used. Unrated securities are labeled as such in the breakdown, but this doesn't necessarily indicate low quality. S&P's rating scale ranges from AAA (highest quality) to D (lowest quality), with AAA to BBB being investment grade and BB to D being non-investment grade.

Final Maturity Breakdown (% of Managed Assets)

Portfolio data as of 12/31/25. Percentages based on Managed Assets and may change daily.

Top States (% of Managed Assets)

Texas	14.2

Before You Invest

Before considering an investment in the Fund, you should understand that you could lose money.

Interval funds are closed-end funds that allow daily purchases and redemptions by periodically offering to repurchase a portion of shares from shareholders. These funds aim to create portfolios with less capital volatility while holding a greater percentage of less-liquid, longer-term investments, often with higher risk-return opportunities than open-end mutual funds or ETFs.

Key points to consider: **Municipal Bond Risk:** Risks related to municipal bonds include: **Issuer Repayment:** The possibility that the issuer may be unable to repay the bond obligation. **Limited Information:** Some issuers lack comprehensive information available to investors. **Tax and Legislative Changes:** Future changes in tax laws or legislation could impact the municipal securities market and their value.

Leverage Risk: Leverage creates opportunities for increased net investment income dividends for Common Shareholders. However, it also exposes the Fund to greater risk and costs. Increases and decreases in the Fund's portfolio value are magnified when leverage is used. Interest expenses on borrowings may reduce the Fund's return. The success of the Fund's leveraging strategy is not guaranteed. **Debt**

Securities Risk: Risks of investing in debt or fixed-income securities include credit risk, maturity risk, market risk, and interest rate risk. Remember that investing in the Fund carries significant risks, and it is designed for long-term investment, not short-term trading. **Below Investment Grade Securities Risk:** The Fund may invest in securities that are rated, at the time of investment, below investment grade quality (rated Ba/BB or below, or judged to be of comparable quality by the Advisor), which are commonly referred to as "high yield" or "junk" bonds and are regarded as predominantly speculative with respect to the issuer's capacity to pay interest and repay principal when due. The value of high yield, lower quality bonds is affected by the creditworthiness of the issuers of the securities and by general economic and specific industry conditions. Issuers of high yield bonds are not perceived to be as strong financially as those with higher credit ratings.

Remember that investing in the Fund carries significant risks, and it is designed for long-term investment, not short-term trading.

1. Average annual total returns include the change in share price and reinvestment of dividends and capital gain distributions. Institutional shares are generally only available to corporate and institutional investors. **2.** The Muni Income Composite Index consists of the Bloomberg Municipal Bond Index and Bloomberg High Yield Municipal Bond Index weighted 80%/20% respectively. The Bloomberg Municipal Bond Index is considered representative of the broad market for investment-grade, tax-exempt bonds with a maturity of at least one year. Bonds subject to the alternative minimum tax or with floating or zero coupons are excluded. The Bloomberg High Yield Municipal Bond Index is a flagship measure of the non-investment grade and non-rated U.S. dollar-denominated tax-exempt bond market. Index results assume the reinvestment of all capital gain and dividend distributions. An investment cannot be made directly into an index. The Bloomberg High Yield Municipal Bond Index is generally representative of the market sectors or types of investments in which the Fund invests. **3.** Limited quarterly liquidity anticipated at NAV (10%) of outstanding shares anticipated. **Effective Maturity** is the average time to maturity of debt securities held in the portfolio, taking into consideration the possibility that the issuer may call the bond before its maturity date. **Modified Duration to Worst** is the duration of a bond, computed using the bond's nearest call date or maturity, whichever comes first. This measure ignores future cash flow fluctuations due to embedded optionality. **Average Price** is based on market value and is the market weighted average of all bonds held in the Fund's portfolio, including any zero coupon bonds. **Managed Assets** is the Fund's total assets (including any assets attributable to leverage), minus the sum of its accrued liabilities (other than Fund liabilities incurred for the purpose of creating effective leverage (i.e. TOBs) or Fund liabilities related to liquidation preference of any preferred shares issued). **Leverage** is based on the use of proceeds received from tender option bonds transactions (TOBs), issuing Preferred Shares, or funds borrowed from banks or other institutions, expressed as a percentage of "Managed Assets". **Leveraged Duration to Worst** provides investors with an estimate of how much a leveraged bond fund could potentially lose in value if interest rates were to rise to their highest levels, while accounting for the leverage employed in the fund's investment strategy. **Yield to worst** is the lowest potential yield that can be received on a bond without the issuer actually defaulting. **Coupon Rate** is the interest rate that the bonds held within the fund pay out to investors, expressed as a percentage of the bond's face value. **Call Exposure** reflects the percentage of issues maturing or presently scheduled to be called from the Fund in the years specified. No assurance is made regarding whether or when the bonds may be called. Portfolio information is subject to change due to active management.

Consider the Funds' investment objectives, risks, charges, and expenses carefully before investing. The prospectus and summary prospectus include this and other information about the Funds and are available by visiting the [Prospectus](#). Read the prospectus carefully before investing.
