Objective

Epoch Investment Partners, Inc. (“Epoch”) seeks to provide a high level of income by investing in a globally diversified portfolio of stocks with a history of attractive dividends and positive growth in free cash flow, which may be used to pay future dividends.

Investment process

Epoch’s Global Equity Yield strategy pursues attractive total returns with an above-average level of income by investing in a diversified portfolio of global companies with strong and growing free cash flow. Companies in the portfolio possess managements that focus on creating value for shareholders through consistent and rational capital allocation policies with an emphasis on cash dividends, share repurchases and debt reduction — the key components of shareholder yield. The portfolio generally holds between 90 and 120 stocks from equity markets worldwide, with risk controls to diversify the sources of shareholder yield and minimize volatility. Epoch may give consideration to certain environmental, social, and governance (“ESG”) criteria when evaluating an investment opportunity.

Shareholder Yield: A more comprehensive form of shareholder return

Epoch believes the growth and applications of free cash flow represent among the best predictors of long-term shareholder return, and that companies can maximize returns through disciplined capital allocation.

- A company should reinvest capital if the expected return on invested capital is greater than the company's cost of capital
- Remaining free cash flow should be returned to shareholders via **shareholder yield**

Important Information

Past performance is no guarantee of future results, which will vary.

1. Returns are presented "pure" gross and net of management fees and include the reinvestment of all income. "Pure" gross returns, presented as supplemental information, do not reflect the deduction of any trading costs, fees and expenses and are presented for comparison purposes only. Net performance reflects the "pure" gross-of-fees return reduced by the highest annual fee, calculated on a monthly basis. Portfolio performance returns are based upon trade date accounting and include the reinvestment of all interest, dividends and all realized and unrealized gains and losses. Portfolio performance is presented net of non-reclaimable withholding taxes. Portfolios are valued daily. Multi-horizon rates of return (monthly, quarterly, annual, and annualized periods) are calculated by geometrically linking daily rates of return. Returns are annualized for periods greater than 1 year. Periods less than 1 year are cumulative, unless otherwise noted.

2. Supplemental information as of December 31, 2025.

3. The characteristics shown are those of a representative account that closely follows the model portfolio strategy employed by Epoch. This information is intended to illustrate the positioning and attributes of the strategy and may differ from the actual holdings in any specific client account. Actual portfolios may differ due to factors such as cash flows, account-specific restrictions, or timing of trades. The data is provided for illustrative purposes only and does not represent actual client results.
